LASTING
JOY

At **ROBEL**, our unwavering commitment to excellence is the foundation of our enduring success. We meticulously curate our laminates to align with our clients discerning tastes and interior aspirations. Our artistically crafted laminates come in a spectrum of cool hues, offering a wide range of options to suit any design vision. we consistently explore innovative color palettes and textures to ensure that our clients have access to the very best in the industry. Our relentless pursuit of quality has garnered the unwavering love and trust of our esteemed customers. we firmly believe that true peace of mind begins at home, and our laminates are designed to enhance the beauty and serenity of your living spaces.

90° PVC BENDABLE LAMINATES

Our 90° Bendable PVC laminates are specifically engineered to eliminate the harsh and lackluster edges of your interior fittings. With our PVC laminates, you can seamlessly shape and adapt them to your preferred form, achieving a stylish and tasteful finish. Our expert team is eager and fully prepared to help you rejuvenate your living space. Feel free to reach out to us; we'd be thrilled to provide you with outstanding service.

Colour Core

Color Core Laminate is crafted with a focus on purity, depth, and lasting color. Each shade runs through the core, delivering uniform tone and refined elegance. Designed for modern interiors, it blends strength with seamless aesthetics. Our collection celebrates solid colors that stay true over time. Precision, consistency, and style define every sheet we create. Because true design begins at the core of color.

Thickness

: 1.25 & 1.5 mm ±10% Customize In Thickness Possible

Standard Sizes

: 8ft x 4ft (1220 x 2440) Customize In Lenth Possible

Range

: These Premium PVC Laminates come in a wide range of design, colours and finishes.

CUSTOMIZED SIZES AND SHADES CAN BE DEVELOPED ON REQUEST.

Adhesive : These laminates are easy to apply with the standard laminating system, including most of the conventional water and solvent based adhesives normally used with plastic laminates. We DO NOT recommend the use of heat activated adhesives.

Lamination : Proper substrates must be used and careful. bonding procedures must be observed. Substrates should be of good quality plywood, PVC Board high density particle board, or high quality fiber board. The face of the substrate must be smooth and free of grease, wax, dust, chips and other foreign matter. We DO NOT recommend any kind of coat like PU base, melamine, lamination (wax) on our products.

Cutting & Machining : These laminates can be cut by using sharp diamond blade cutter only. We recommend the use of smooth file to feather all corner edges.

Bending : Kindly use V-Groove cutter to bend the sheets at 90. For any difficulty please contact us.

Maintenance : Any cleaning agent containing acids, alkalis or abrasive should NOT be used the laminate. Exposure to sunlight should be avoided.

Note : Robel warrants that all its products are free from manufacturing defects and perfectly fit for use in normal conditions. In case fo any claim, the liability the company's is however limited to the cost of the our product only. There may be batch colour variation. The sample swatches only represent the designs, colours and finish. They do not represent the actual thickness.

KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.

Always use a micro fiber cloth to clean the surface

Do not use a dry cloth to clean the surface

No scouring or abrasive material must be used to clean the surface

Always presoak the cloth before cleaning the surface

Do not use cleansers, thinners, acetone, ammonia or other aggressive chemicals to clean the surface
